

What's Inside the Checklist?

Our checklist covers **every critical area of fall protection**, including:

1. Workplace Hazard Identification

- ☐ Are there unprotected edges, openings, or elevated surfaces?
- ☐ Are all work areas **stable and free from trip hazards**?
- ☐ Is there adequate lighting in high-risk areas?

2. Fall Protection Systems

- ☐ Are guardrails installed where required?
- ☐ Do you have **lifeline or anchor systems** in place?
- ☐ Are all systems properly **secured and maintained**?

3. Ladder & Scaffolding Safety

- ☐ Are ladders **stable, properly secured, and undamaged**?
- ☐ Are scaffolding systems OSHA-compliant?
- ☐ Are employees trained in proper ladder and scaffold use?

4. Personal Protective Equipment (PPE)

- ☐ Are harnesses and lanyards **inspected and in good condition**?
- ☐ Do employees have access to **the correct PPE for their tasks**?
- ☐ Are workers trained on **how to properly wear and use PPE**?

5. Employee Training & Awareness

- ☐ Have employees completed **OSHA-mandated fall protection training**?
- ☐ Do workers know how to properly use safety equipment?
- ☐ Is there a documented **fall protection plan in place**?

6. Emergency Preparedness

- ☐ Do you have a **fall rescue plan** in case of an accident?
- ☐ Are employees trained in **emergency response procedures**?
- ☐ Is all safety equipment regularly **tested and maintained**?
